## Open Recalls

Recall #: N212340980 | Rear Toe Link Separation    Recall Date: 2021 Jun 24

### Recall Description

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2010 to 2016 model year Cadillac SRX and 2011 to 2012 Saab 9-4x vehicles. These vehicles may have received improper service requiring adjustment of a rear suspension toe link. In rare cases, dealers or independent repair shops may not have followed GM's published procedures for torquing the jam nut in the toe link adjusters to the proper specification. A loose toe link can cause the vehicle to sway or wander at highway speeds or allow water or other corrosive elements to enter the threads within the adjuster. If a toe link is improperly adjusted, corrosion combined with vehicle motion may eventually cause the threads within the link to wear and loosen. In very rare cases with continued use, the link could separate. Separation while the vehicle is being driven increases the risk of a crash.

### Remedy

Dealers will replace the adjustable toe link with a design that prevents adjustment.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CADILLAC or visit [GM's website](#).
