This vehicle history report is based on information that was reported and available to CARFAX Canada as of November 20, 2021 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources, and we receive new historical data records every day. There may be other information about this vehicle that has not been reported to CARFAX Canada. When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

**CARFAX Canada No Reported Accidents™ Badge**

The CARFAX Canada No Reported Accidents™ badge is based on the damage records and/or branding information reported to CARFAX Canada. The badge is available for personal vehicles that have only been registered in Canada, and were not at the time this report was generated, declared stolen.

This vehicle history report is compiled from multiple data sources. It is not always possible for CARFAX Canada ULC or its source data providers to obtain complete information on any one vehicle. For example, there may be other title, brands, registrations, declarations, accident information, service records, recall information, odometer readings or other information where discrepancies that apply to this vehicle are not reflected in this report. CARFAX Canada and its source data providers receive data and information from external sources believed to be reliable, but no responsibility is assumed by CARFAX Canada, its source data providers or its agents for any errors, inaccuracies or omissions. The reports are provided strictly on an as-is where-is basis, and CARFAX Canada and its source data providers further expressly disclaim all warranties, express or implied, including any warranties of timeliness, accuracy, merchantability, merchantable quality or fitness for a particular purpose regarding this report or its contents. Neither CARFAX Canada nor any of its source data providers shall be liable for any losses, expenses or damages in connection with any report or any information contained within a report, including the accuracy thereof or any delay or failure to provide a report or any information. Other information about the vehicle that is the subject matter of this vehicle history report, including problems, may not have been reported to CARFAX Canada. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car. By obtaining, reviewing and/or using this vehicle history report, you agree to be bound by all of the terms and conditions in CARFAX Canada's Conditions of Use and any CARFAX Canada End User License Agreements as each may be amended from time to time by CARFAX Canada. Conditions of Use

# Vehicle History Report

## Accident/Damage

There are no accidents/damage reported on this vehicle.

## Registration

This vehicle has been registered in the province of New Brunswick in Canada with Normal branding.  
We checked for: Inspection Required, Normal, Non-repairable, Rebuilt, Salvage and Stolen.

## Open Recalls

Recall #: N192270330 | Rear Window Defroster Thermal Events - Canada Only Recall Date: 2019 Nov 08

### Recall Description

Certain 2014-2019 model year Chevrolet Silverado and GMC Sierra vehicles equipped with a power sliding rear window (RPO A48) had safety recall #N192220470 performed. This field action restores the rear window defrost function.

### Remedy

Dealers will replace the buss bar covers and the contact cover, and for certain vehicles, will reprogram the HVAC calibration to disable the rear defroster from automatically turning on at keyed start. Please note that the rear defroster will automatically turn on during remote start or by pushing the manual button and is not affected by this calibration. If the rear window or sliding glass assembly appears damaged due to an occurrence of high electrical resistance on the rear defroster circuit, they will also be replaced. Dealers will also install the rear defroster fuse that was previously removed in field action # N192220470.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit GM's website.

Recall #: N192261050 | Unexpected Pull To One Side Recall Date: 2019 Oct 24

### Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014 - 2018 model year Chevrolet Silverado and GMC Sierra 1500 vehicles equipped with four-wheel drive, a 5.3-liter engine, and a 3.08-ratio rear axle, and certain 2015 - 2020 model year Chevrolet Suburban, Chevrolet Tahoe, and GMC Yukon equipped with four-wheel drive, a 5.3-liter engine, and a 3.08-ratio rear axle. If a wheel-speed sensor fails in these vehicles, a software error in the vehicle's electronic brake control module (EBCM) can cause the vehicle's driveline-protection system to activate when (i) the vehicle's electronic transfer case is set to four-wheel drive or automatic mode, and (ii) the vehicle is driven between the speeds of 41 and 60 MPH. If the driveline-protection system activates, the driver will experience unintended braking on the wheel on the opposite side of the failed sensor.

### Remedy

Dealers will reprogram the electronic brake control module (EBCM).

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit GM's website.

## Stolen Vehicle Check

This vehicle is not actively declared stolen.
