Recall #: N192221960 | ECM Malfunction Recall Date: 2019 Sep 06

Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2018 model year Chevrolet Malibu vehicles equipped with 1.5L Turbo engines. Under certain conditions, an error in the vehicles' engine control module (ECM) software can cause data used by the ECM to become corrupted. When this occurs, the ECM may send a signal disabling the engine's fuel injectors. If the fuel injectors are disabled, the engine may not start and, in rare cases, the engine may stall after it is started.

Remedy

Dealers will reprogram the ECM software to correct the error.
