This vehicle history report is based on [information](https://www.carfax.ca/vehicle-history-data) (https://www.carfax.ca/vehicle-history-data) that was reported and available to CARFAX Canada as of November 30, 2024 (or once all the data was collected from our data sources and the report was complete). CARFAX Canada draws on billions of data records from thousands of sources across North America, and we receive new historical data records every day. **There may be other information about this vehicle that has not been reported to CARFAX Canada.** When buying a used vehicle, we always recommend using a CARFAX Canada Vehicle History Report, along with a vehicle inspection and test drive, to make an informed decision.

# Vehicle History Report + Lien Check

## Lien Check

✓ No lien records found in **Ontario**.

### How We Check for Liens

CARFAX Canada uses the VIN to search government records in each Canadian province and territory (excluding Northwest Territories) where the vehicle is currently registered and where it has historically been registered. We do not check for liens or title in any U.S. state.

If a VIN has no registration records in Canada, we cannot check for liens. We cannot guarantee lien checks on trailers, recreational vehicles or heavy-duty equipment.

Purchasers should always get written confirmation from vendors that there is no lien on the vehicle.

### CARFAX Canada Canadian Lien Guarantee

If for some reason our lien check fails to accurately reflect the Canadian enforceable lien status of a vehicle at the time of the search, CARFAX Canada will reimburse the party that purchased the report and relied on it to their detriment to a maximum amount of (1) the value of the car (2) the value of the lien (3) Five Thousand Dollars Canadian (\$5,000.00), whichever is lower.

## Accident/Damage

✓ There are no accidents/damage reported on this vehicle.

## Registration

✓ This vehicle has been registered in the province of **Ontario** in **Canada** with **Normal** branding.

*We checked for: Inspection Required, Normal, Non-repairable, Rebuilt, Salvage and Stolen.*

## Open Recalls

Recall #: TKC-19 | Front Passenger Airbag Inflator Recall Date: 2019 Jan 09

### Recall Description

On certain vehicles long-term exposure to high absolute humidity and temperature combined with high temperature cycling may eventually degrade the propellant contained in the passenger-front airbag. This could cause the airbag to deploy with more force than normal. If the airbag inflator ruptures fragments could be propelled toward vehicle occupants or cause damage to the airbag assembly preventing its proper function.

### Remedy

Owners will be notified by mail and instructed to take their vehicle to a dealer to have the passenger-front airbag inflator replaced. Note: The Canadian climate results in the propellant degrading slowly. This recall is being conducted as a precaution to address future risk. It is expected that all airbag inflators will be replaced before their function would be affected.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed,

Recall #: WUE-90 | Brake Light Switch Recall Date: 2019 Mar 01

**Recall Description**

On certain vehicles the brake lamp switch could fail. This would cause the brake lamps not to turn on when the brakes are applied. Depending on the model this could cause an inability to shift from park or to start using the push-button ignition. This may also cause problems with the following: anti-lock brake system (ABS) vehicle dynamics control (VDC) and/or Eyesight system.

**Remedy**

Dealer will replace the brake lamp switch.
