NX 300

Experience razor-sharp styling that conceals a 2.0-liter turbocharged in-line four-cylinder engine delivering 235 horsepower.² Every NX model features Amazon Alexa³ compatibility, as well as class-leading standard Lexus Safety System+ 2.0.^{4,5} And added iPhone^{®6} functionality via Apple CarPlay^{®7} integration. Available AWD.

NX 300 F SPORT

The NX 300 can be further enhanced with more aggressive styling and invigorating performance upgrades, including a more dynamic F SPORT-tuned suspension.

NX 300h

Behind its cutting-edge styling, the NX 300h features a powerful electric engine with a class-leading torque output. The NX 300h can feel like a class-leader. Standard AWD.

MORE EX FOR MOR

With two sources of power, all-wheel drive, even more to than from the world.

NX 300h

Welcome to the next level of power. The NX 300h features powerful electric motors, and smooth, seamless acceleration. Leading 31-MPG combined city/hwy driving, smoother and quieter ride, single tank of gas. All without the need for a gas station. The drive system so innovative it offers performance as good as the condition of the road, as well as the condition of your mind.

TURBOCHARGED POWER

...ence the surge of a 235-horsepower² engine that doesn't let up in the NX F SPORT. Thanks to the Lexus engineers who spent years researching, tuning and refining a turbocharger with advanced twin-scroll technology, the engine seamlessly moves between conventional and Atkinson cycles, for acceleration with remarkable efficiency.

ALL-WHEEL DRIVE

...possibilities and go beyond limitations with available all-wheel drive. It predicts your path, monitoring the vehicle and your input. On the NX and F SPORT, if wheelspin is detected, it can deliver up to 50% of available torque to the rear wheels. On the NX Hybrid, the electronic AWD system is adaptive, it can even adapt to the angle and condition of the road.

ess.

ADAPTIVE VARIABLE SUSPENSION

Available AVS allows the driver to harness the engine's power and feel connected to the pavement like never before. Based on the state-of-the-art technology in the Lexus LC, this system features 650 levels of damping that can automatically adapt to changing conditions, for enhanced response based on the selected drive mode.

F SPORT STYLING

The NX F SPORT doesn't just look the part—it feels it. From its aggressive exterior styling to deeply bolstered front sport seats that hug you through the turns, this luxury crossover brings exhilaration to every drive. Exclusive Circuit Red NuLuxe® and Arctic White NuLuxe interior trims boldly reflect its performance roots. And impeccable contrast stitching completes the experience of pure invigoration for all the senses.

BOLSTERED SPORT SEATS

Feel confidence through every curve with the F SPORT front sport seats. Featuring a unique foam-injected construction and designed to contour to the needs of the driver, these enhanced bolstered sport seats cradle you from hip to shoulder for a more dynamic driving experience.

DRIVER'S COCKPIT

F SPORT performance is deeply ingrained in the driver's experience, with lightning-fast paddle shifters, exclusive G-force and turbo-boost gauges, and an exclusive perforated leather-trimmed shift knob and heated steering wheel. Additional signature touches in the F SPORT include rubber-studded aluminum pedals and Metallic Sport interior trim.

EMPOWERING TECHNOLOGY

Enjoy access to your favorite apps with Apple CarPlay integration. While compatibility with Android Auto and Amazon Alexa offer more ways to make the NX your own.

system+ 2.0, an integrated suite of active safety equipment.^{4,5}

LANE TRACING ASSIST

When All-Speed Dynamic Radar Cruise Control¹⁹ is enabled, this hands-on system³ monitors visible lane markings or the path of the preceding vehicle to help the driver keep their vehicle centered in the lane by providing steering assistance. Designed for added convenience and to help reduce driver strain, the system can even be used in traffic and on highways with gradual curves.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system¹² utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST

This system²⁰ uses a built-in camera to help provide road sign information in the instrument panel. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system¹⁹ uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and automatically slow your vehicle—even to a complete stop. If driving at highway speeds and the road ahead clears, your Lexus returns to its preset speed.

TECHNOLOGY THAT ANTICIPATES AND REWARDS

AMAZON ALEXA

Bring all the convenience of Amazon Alexa³ on the road with the Lexus+Alexa³ app. Using only your voice, you can easily access thousands of the same functions you get with Alexa at home. Listen to audiobooks, stream Amazon Music;³ make lists, check the weather, get news briefings and much more. You can also use it to control compatible smart-home devices²² such as lighting, thermostat and security systems. Offering added in-vehicle convenience, Alexa can even sync to your Navigation System²³ or provide on-the-go directions via the Waze^{TM24} app on compatible devices.

APPLE CARPLAY[®]

With Apple CarPlay⁷ integration, you can access the same familiar interface from your iPhone⁶ through the vehicle's multimedia display. Simply connect your iPhone to get directions, make calls, send and receive messages via Siri,^{®25} and get access to your favorite apps like Waze, Spotify[®] and Apple Audiobooks.^{TM26}

ANDROID AUTO[™]

With Android Auto,¹⁶ you can now seamlessly cast your device's interface onto the vehicle's multimedia display. Play your music via your favorite apps such as Spotify and Pandora,[®] send messages through a range of commonly used apps like WhatsApp^{®17} navigate with Google Maps,^{TM27} and request information—all with your voice. Just say "Hey Google" to get started. For added convenience, Android Auto can also help shorten your commute by automatically finding alternate routes if it detects heavy traffic.
