

VOLVO XC60

WE ARE REDEFINING PERSONAL MOBILITY.

...de freedom to move in a personal, sustainable and safe way. We do this by putting
...using the best available technology to serve you, inventing new technology where
...s and combining technologies to deliver new experiences.
...we have always put people first. We believe that technology should set us free – not
...ar shall be an enabler of a richer, less complicated life. And as a progressive provider
...ity, we want to enable a future of fully connected, fully electrified and self-driving

...tted to pursuing our visions:

...e seriously injured or killed in a new Volvo car by 2020.

...back one week of quality time per year through a new Volvo car by 2025.

...ent of the cars we produce and sell will be

...

...eflect our commitment to protecting what's important to you and the world we
...marized in the Swedish word 'Omtanke' which stands for caring and consideration. It
...nk again', so we collaborate with some of the world's top tech companies to nurture
...will take us into a better, more sustainable future.

...make your life easier and more enjoyable – and to give back that sense of joy and
...car represents.

E EVOLUTION OF THE DYNAMIC SWEDISH SUV EXPERIENCE.

The Volvo XC60 is the perfect balance between comfort and control. It's the SUV where bold design meets a beautiful interior, where technology is natural and where every drive is a pleasure.

With its dynamic, commanding presence, the XC60 is the SUV with a unique Scandinavian attitude. The exterior mixes muscular dynamism with clean, elegant Scandinavian design. One glance tells you this is a car that's ready for whatever activity or challenge awaits. And the interior is crafted from the finest Swedish materials, making sure it's full of natural light and packed with clever touches to make every day easier.

Behind the wheel, you can enjoy technology with a human touch. You're connected, and our most advanced safety technology will help looking out for you, your passengers and other road users.

This is the dynamic Swedish SUV experience. Evolved.

The Volvo XC60 possesses all the qualities of good Scandinavian design – understated yet confident, uncluttered and beautiful. It is an SUV that projects poise and power. In profile, the bonnet, rising side window line and sharply angled tailgate highlight its dynamic nature. Large wheels and pronounced wheel arches express the car's athleticism and capability.

Up close, the sharp creases and its muscular, contemporary character with distinctive T-shaped daytime running lights leave an unmistakable impression, day or night. The lines that flow into the tailgate are a Volvo signature, expressing the car's strength. Everywhere you look, there is a delight. The XC60 is a car that you will never tire of and which you will never tire of.

PLEASURE FOR YOUR SENSES

The Volvo XC60 is built for enjoyment, because we think you should enjoy every drive in your car, no matter how short or long the journey. That's why we crafted the XC60 to be a car that you feel inspired and confident to drive. One where you always feel in control, and where technology is there to support you and make every interaction second nature.

With its strong, lightweight construction and sophisticated suspension components, the chassis of the XC60 allowed us to find just the right balance between comfort and control. To create a car that offers great driver feedback but which leaves you feeling fresh, even after a long journey.

Experience the rewards offered by the dynamic handling in a cabin that provides outstanding comfort and a calm, restful environment. With seats designed to perfectly complement the human form, quiet powertrains and first-class sound systems that let you enjoy your favourite music as the artist intended, the interior of the XC60 is a haven. This is the Volvo approach to driving enjoyment.

THE COMM

When you sit in the driver's seat, you're in control of everything the car has to offer. Your journey, from the driving to the destination, with the navigation system.

The experience starts with the dashboard and centre console, a cockpit and putting you in the driver's seat. The finished controls make every journey a pleasure.

We put as much thought into the interior as we do the exterior. The tailored dashboard with genuine wood allows the material to breathe. You're surrounded by the pre-

A close-up, interior view of a Volvo SUV, focusing on the driver's side. The image shows the black leather steering wheel with the Volvo logo, the dashboard with a horizontal wood trim strip, and the center console with a gear shifter. The car is parked on a light-colored surface, and the background is a blurred outdoor scene.

A close-up photograph of the interior of a Volvo Polestar 2. The image focuses on the center console area, showing a black air vent with a silver Volvo logo in the center. To the right of the vent is a speaker grille with a fine, woven mesh pattern. The surrounding surfaces are dark, likely black leather or a similar high-quality material, with some stitching visible. The lighting is soft and focused, highlighting the textures and materials.

A close-up photograph of the Volvo steering wheel and instrument cluster. The steering wheel is light-colored with a dark outer rim and features the Volvo logo in the center. The instrument cluster behind the wheel shows two analog gauges, a speedometer, and a digital display. The dashboard and air vents are visible on either side of the steering wheel.

A close-up photograph of a car's front end, focusing on the headlight and grille area. The headlight is a large, rectangular, multi-faceted unit with a chrome or polished metal finish. It is mounted on a dark, possibly black, grille. The background is blurred, showing the interior of the car, including the dashboard and steering wheel.

A crystal gear selector by the Swedish gla

VERSATILITY'S NEW LOOK.

A car has to be more than great design and a rewarding driving experience – the XC60 is versatile, a place which complements and copes with your active life, with extra usefulness built in.

Inside you'll find a large, evenly shaped load compartment that makes it easy to accommodate irregular sized objects.

A loading hatch in the seats means you don't have to fold the seats to carry long objects, so you can still carry passengers. And, to make your XC60 even more useful, add extra equipment from our accessories range, which are designed to complement the car's interior.

CONNECTED COMMAND.

Sensus Navigation.

Road directions are clearly shown in the driver display, centre display and head-up display. Touch screen controls allow you as well as your passenger to operate the system conveniently and safely. Or talk naturally to your Volvo, and let our voice control carry out your commands while you can keep full attention to traffic.

FEEL THE MUSIC.

You can enjoy an audio system
music you love, wherever

to the acoustics of your Volvo.
le: it's all about the soul of
s or watts. And together with
Wilkins, we have created
systems in the class.
music, the Bowers & Wilkins

audio system with a full 1100W output will take the experience
to an even higher level. The 15 separate high-end speakers
– including a tweeter-on-top centre speaker that minimises
acoustic reflection from the windscreen and our unique air-
ventilated subwoofer – will surround you with a powerful, pristine
sound that feels more spacious and true to life than ever.

It's all about music and making it possible for you to
experience it just as it was intended when it was created.

Our Bowers & Wilkins audio system integrates seamlessly with the cabin architecture of your Volvo to deliver the most realistic immersive sound possible. Innovative audio processing technology allows you to recreate the acoustics of a specific room inside your Volvo, bringing you even closer to the music. And to enable extremely low and undistorted bass tones, the air-ventilated subwoofer uses innovative technology that allows it to pulse large amounts of air, actually turning the cabin into one big woofer.

Intuitively connected. You operate the system using the touch screen controls, steering wheel controls, and smartphone connection also allows convenient streaming.

PILOT ASSIST. DESIGNED TO MAKE DRIVING SAFER AND EASIER.

Oncoming Mitigation by Braking

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically and tighten the optional prepared front safety belts in order to help reduce the effect of a collision.

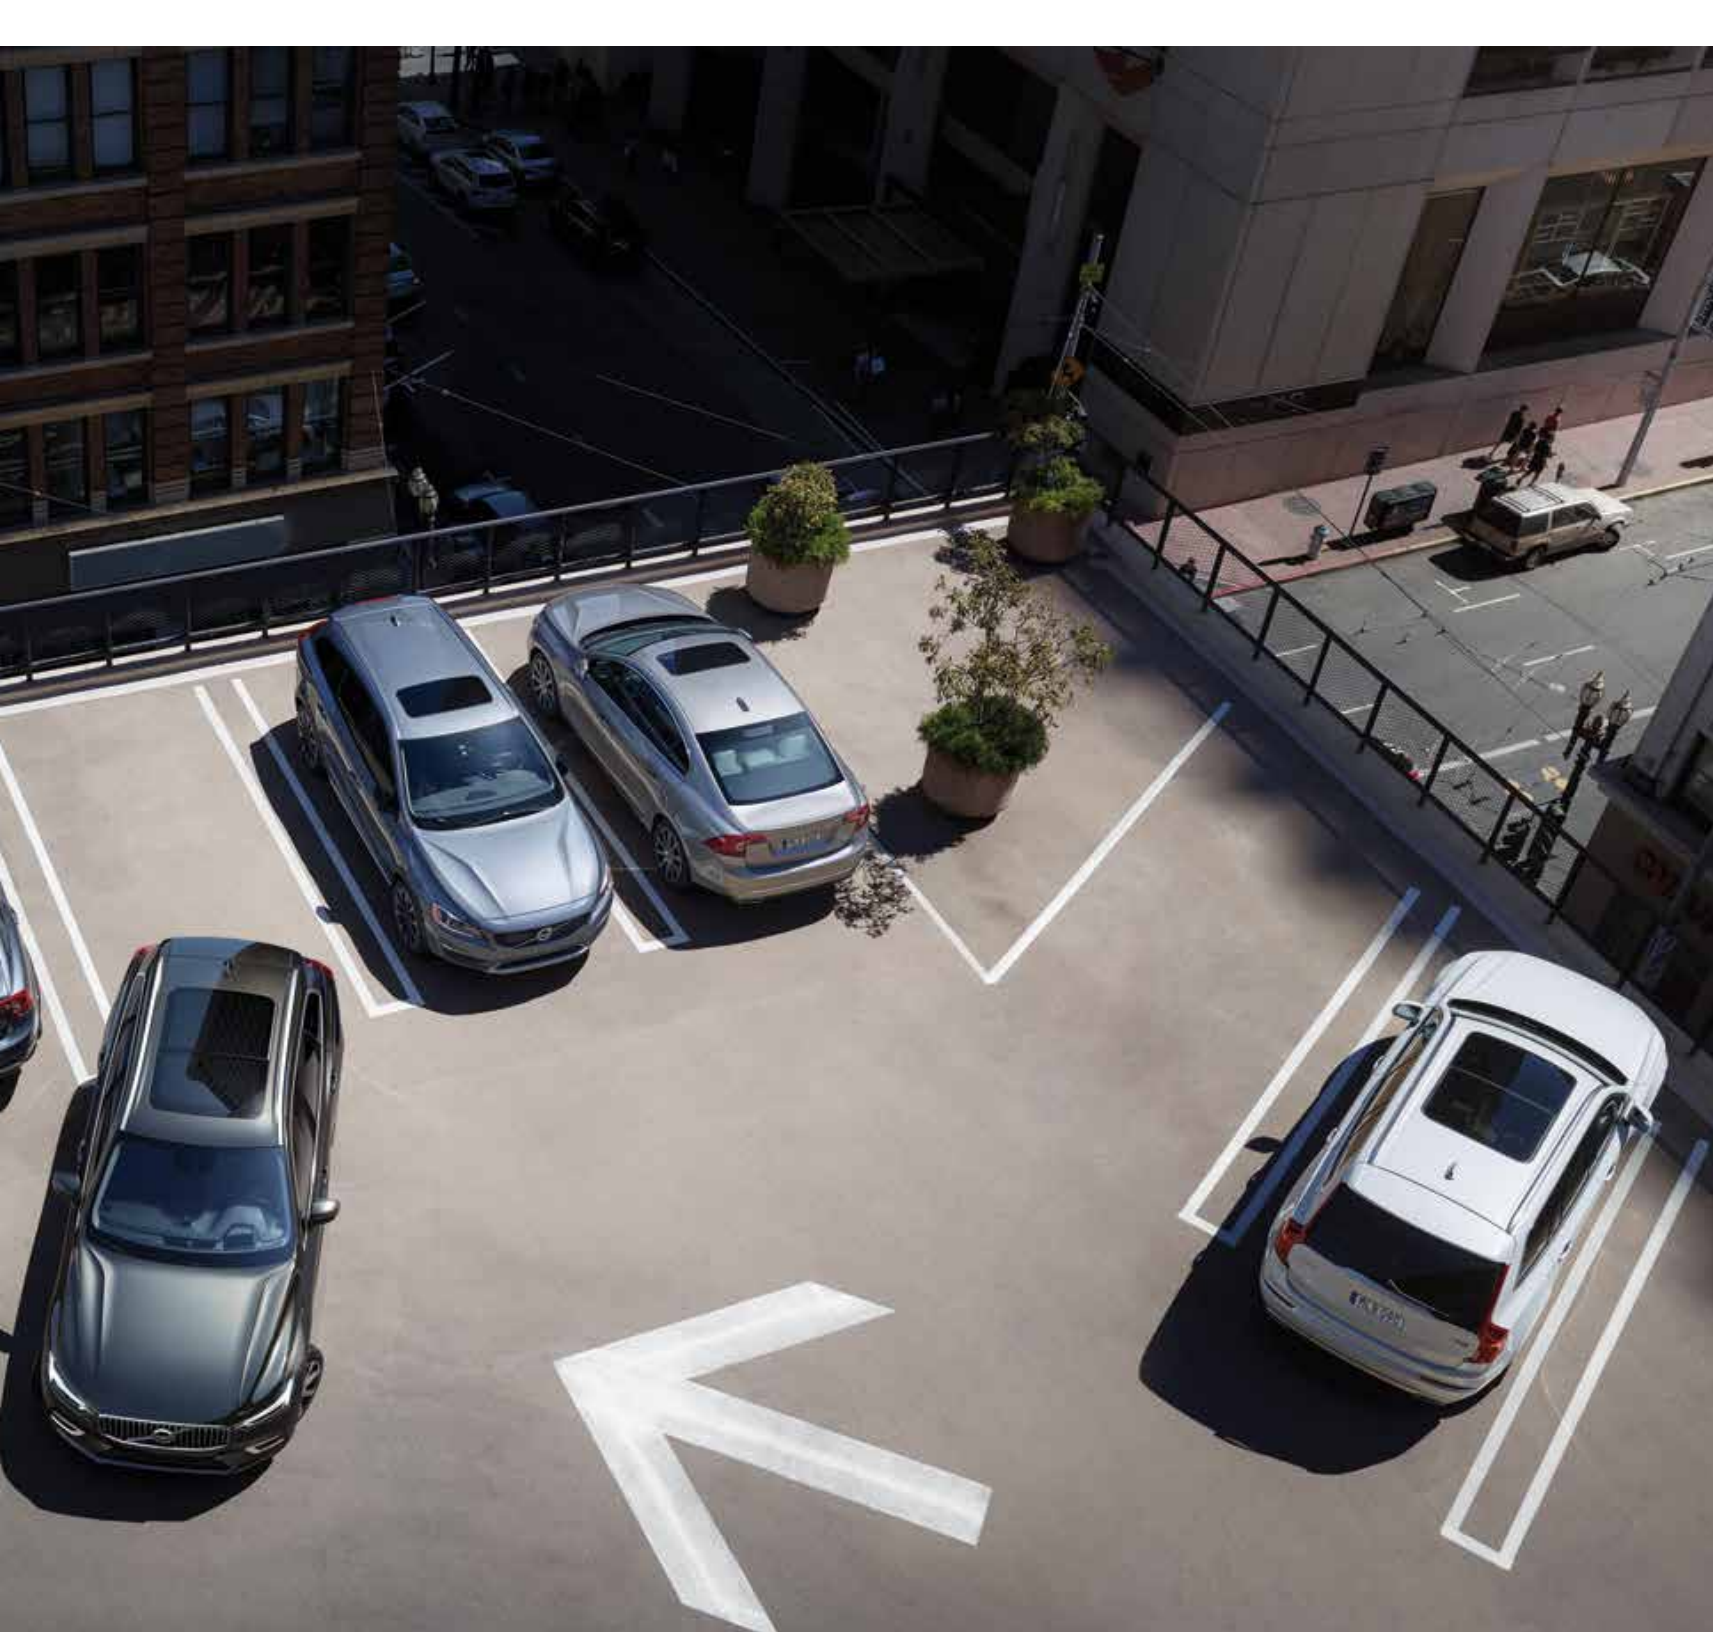

Oncoming Lane Mitigation

Using automatic steering assistance, this system helps you avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car can alert you and gently help steer you back into the correct path.

Lane Keeping Aid

If you're about to cross a lane marking unintentionally, the Lane Keeping Aid can gently help steer your car back into its lane. If this is not enough or you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

PERFECT EVERY

In a Volvo, you can enjoy smooth

When parking, you're supported by assist functions that alert you if you're too close. And by adding our 360° camera, you get a full view of the area surrounding your car, making it easier to reverse or manoeuvre in confined spaces.

360° camera

The 360° camera uses images from different cameras to provide a full view of your car and its closest surroundings, making it easier to park in tight spaces.

DESIGNED TO PROTECT.

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you and your passengers in a collision. Everything, from the design of the seats to the surrounding safety cage and the safety belts and airbags, works together to help minimise the strain on all occupants and maximise protection.

The front seats not only provide excellent support, they are also designed to protect you from whiplash injury. In a rear impact scenario, the energy-absorbing structure of the seats helps protect your spine in a hard landing or airborne.

It's this range of safety technologies that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb a vertical impact, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your

Child

At Volvo, research and development are based on real-world scenarios, ensuring the highest level of protection for all occupants.

With Google Assistant, drivers can use their voice to get things done while keeping their focus on the road. Drivers can do things like control the temperature, set a destination, play music and podcasts, and send messages, all while keeping their hands on the wheel.

Music and media apps optimised and adapted for cars will be available through Google Play, while Google Maps will be able to provide up to date map and traffic data.

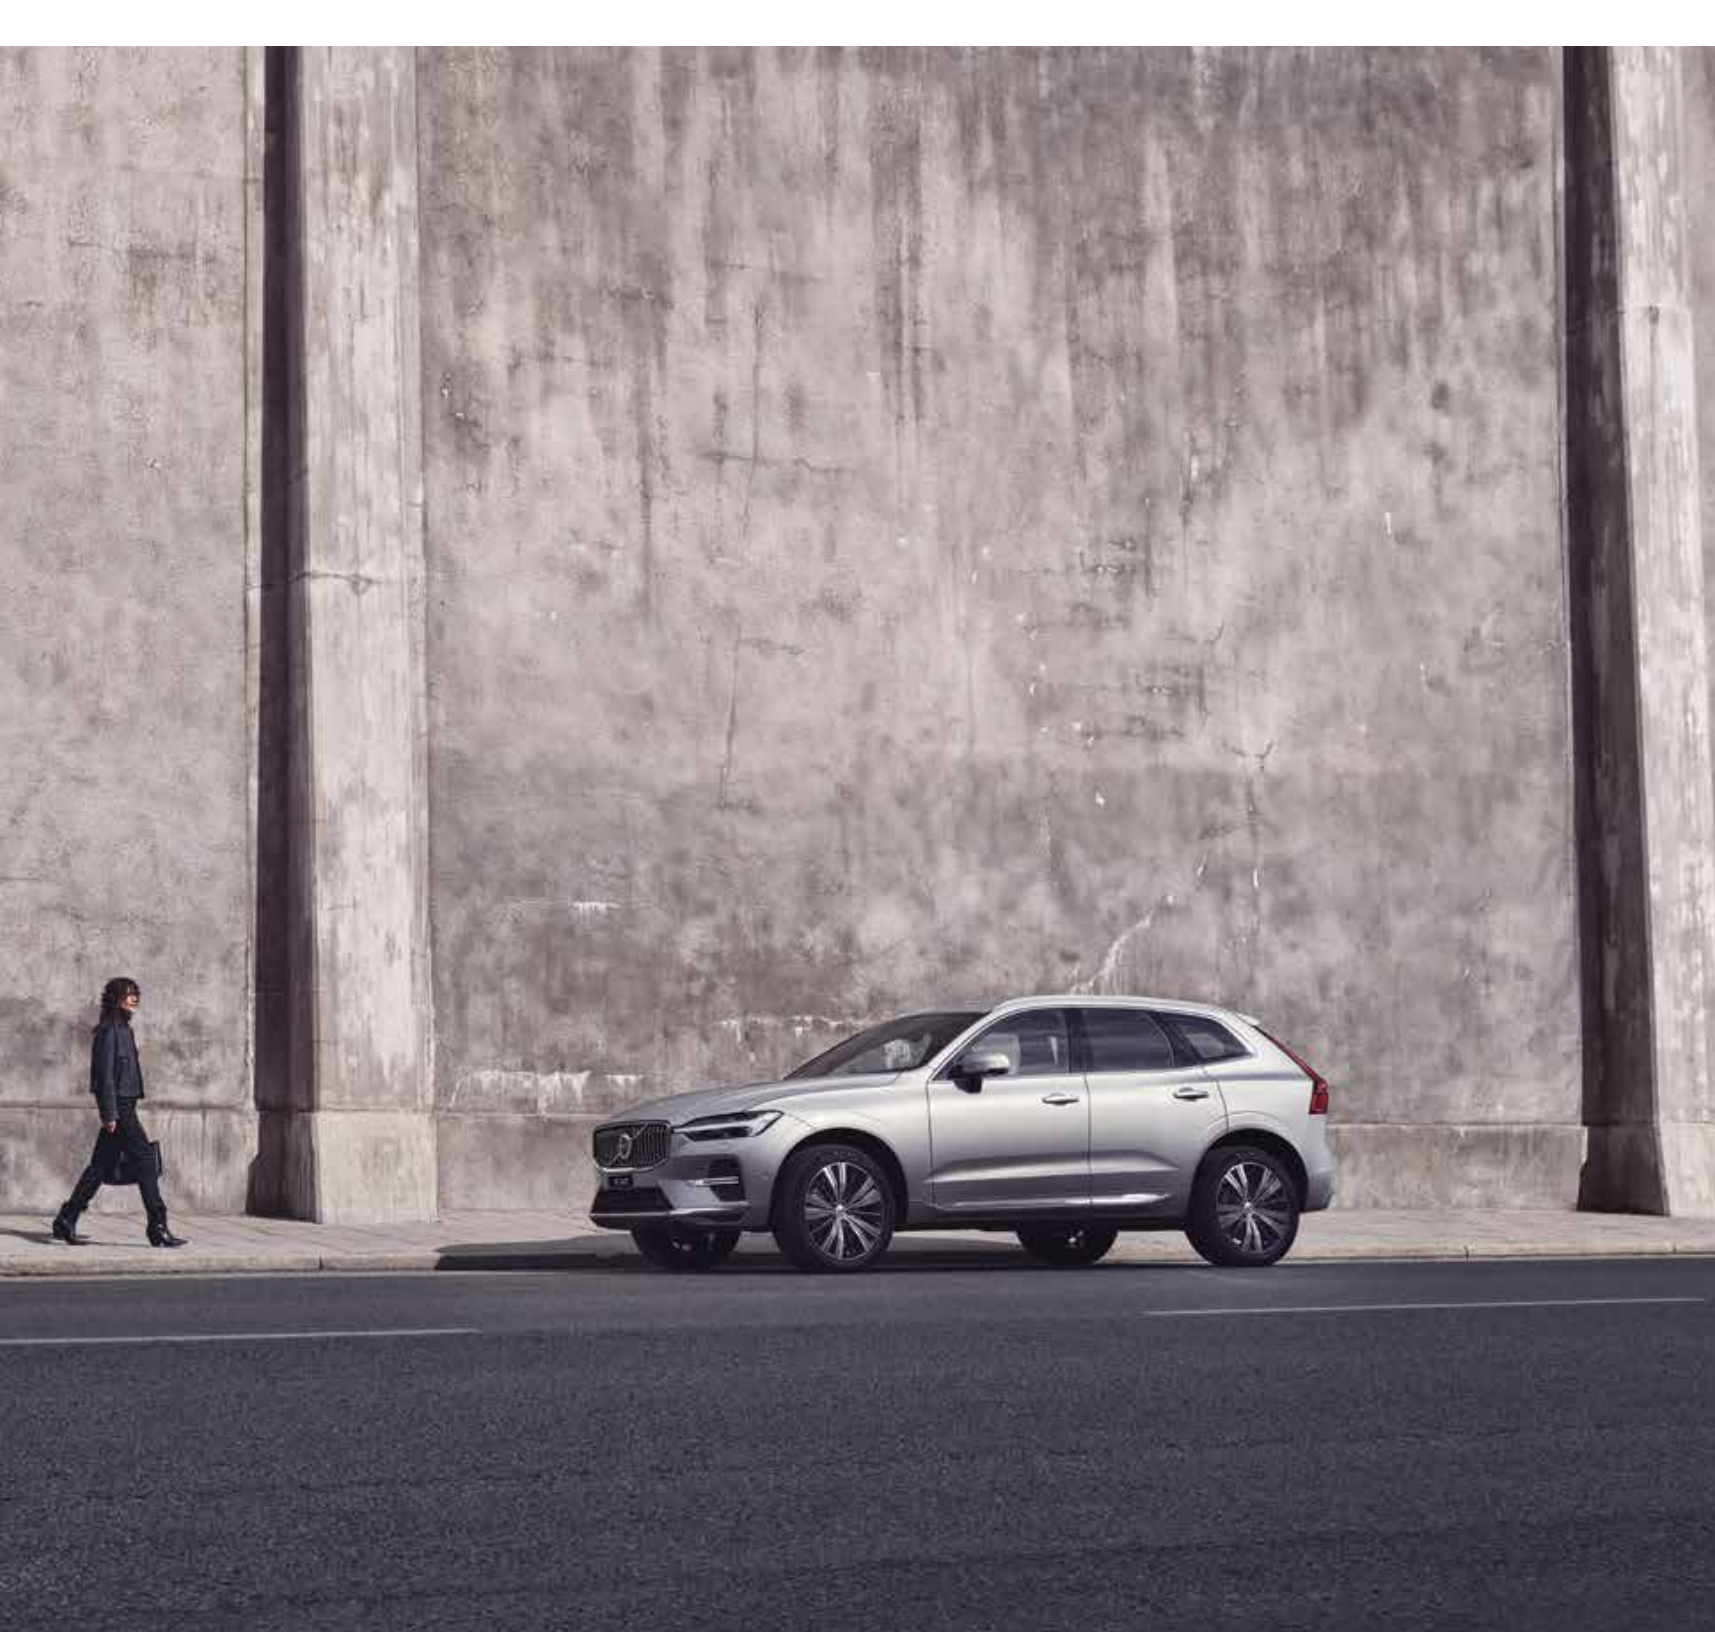

Volvo XC60 Inscription
The dynamic expression
of Swedish luxury.

CREATE THE SWEDISH SUV OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your new Volvo XC60 exactly as you want it, we have created a range of options, trim levels and personal

expressions. Maybe you want the finest Swedish luxury? Then you'll want the Volvo XC60 Inscription. Whatever you prefer, we'll create the Volvo XC60 for you. Read on, and you'll see what it can look like.

Inscription

A HIGHER GRADE REFINEMENT.

We created the exclusive Volvo Inscription to meet the highest expectations on Swedish design. The car's exterior expression that evokes a strong sense of luxury. Each detail is carefully selected to create a stylish and invigorating experience. The design cues enhance the luxurious feel, while the meticulously crafted interior provides you ample room for a relaxed journey.

Exceptional seating is at the heart of the car. We build all our seats to give the driver and passengers support, with plenty of adjustment options in a position that suits them. With the front seat passenger can adjust the seat to your preferences. This luxury is designed for long journeys.

The Volvo XC60 Inscription is a testament to human-centric design. And it's a luxury imbued with distinctive Volvo design. Inscription is in a class of its own.
