Recall #: N172086770 | Driver Side Window Switch Inoperative Recall Date: 2018 May 03

Recall Description

General Motors has decided that a defect which relates to motor vehicle safety exists in 2014 – 2017 Chevrolet Express and GMC Savana vehicles (built through 6/21/16 and 6/17/16 respectively) equipped with power windows. Under certain conditions, liquid can enter the power window switches in these vehicles and cause corrosion, leading to high electrical resistance. High electrical resistance can cause the switch to

heat up, smoke or melt, increasing the risk of fire and injury. Occupants may notice that the power window is malfunctioning or inoperative. Smoke or an odor from smoke or melting may also come from the door panel.

Remedy

Replace driver side door window switch.
