## Open Recalls

Recall #: N202325410 | Loss of Power Steering Assist Recall Date: 2021 Mar 25

### Recall Description

General Motors has decided that a defect, which relates to motor vehicle safety, exists in 2015 model year Chevrolet Colorado and GMC Canyon vehicles. These vehicles may experience loss of power steering assist at startup or while driving due to the potential for a poor electrical connection within the steering gear assembly. A poor electrical connection in the affected steering gear assemblies may be caused by corrosion of certain connectors within the assemblies, or by damage to these connectors that occurred during the supplier's manufacturing process. If loss of connection occurs, power steering assist is lost (i.e., the vehicle reverts to manual steer), a malfunction indicator light displays on the instrument panel and a chime sounds to inform the driver.

### Remedy

Dealers are to replace the steering gear torque sensor cover assembly.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact CHEVROLET or visit [GM's website](#).

#### ICBC Disclaimer

The information supplied by ICBC is a report of the vehicle's status and the vehicle's claims history. Vehicle status shows whether a vehicle is qualified to be licensed and is used to track:

- vehicles sold by insurance companies as salvage
- salvage vehicles which have been rebuilt, inspected, and relicensed
- wrecked vehicles that have been decommissioned and can only be resold for parts

The vehicle status may not represent the vehicle accurately for a number of reasons, including a written-off vehicle that hasn't been reported to the B.C. vehicle registry or a vehicle with major damage that was repaired by its owner. The vehicle claims history is a report of vehicle damage and includes repairs paid by ICBC and outstanding damage estimates. It may be incomplete for various reasons, including the owner did not make a claim to ICBC or ICBC has denied the claim. In addition, the estimate information may not necessarily reflect the actual cost of repairs, list the area of the vehicle that sustained the greatest force of impact, or indicate the primary area of damage.

Consumers are encouraged to read ICBC's full statement of limitations at <http://apps.icbc.com/registration/vclsr/Limitation.html>.

ICBC recommends the vehicle be inspected by a qualified mechanic to obtain a more complete assessment of the vehicle's condition.
